ABSTRACTED-PUB-NO: WO 8304170A

BASIC-ABSTRACT:

A non-skid web, specially a carpet or a rug, consists of a textile woven fabric or a needle loom mat with a backing of plastic material, if necessary. A self-adhesive layer is applied to the back by spraying an elastomer material, e.g. natural or synthetic rubber on the felt.

Such a carpet is easy to lay and to remove without damage to sensitive flooring, e.g. parquet flooring.

# ANNEX TO THE INTERNATIONAL SEARCH REPORT ON

INTERNATIONAL APPLICATION NO. PCT/CH 83/00071 (SA 5230)

This Annex lists the patent family members relating to the patent documents cited in the above-mentioned international search report. The members are as contained in the European Patent Office EDP file on 15/11/83

The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
